***Nikpol's EGGER Melamine and Worktop products are proudly endorsed by Sensitive Choice.***

Developed by the National Asthma Council Australia (NAC) the Sensitive Choice program encourages manufacturers and distributors to be asthma and allergy aware.

High levels of pollutants from VOCs (Volatile Organic Compounds) such as formaldehyde are found in wooden building materials and can often cause respiratory issues for people - particularly asthmatics and the elderly.

EGGER melamine board and worktops have lower formaldehyde levels than E0, F\*\*\*\* (0.3mg/l) making it the lowest level of formaldehyde to be used in manufacturing of wood based products in Australia.

Insist on specifying EGGER for your next project. It will minimise the levels of VOC emissions in your home or work environment.

# 08 — Worktops

Nikpol presents the next generation of high quality stone and wood reproduction worktops. These worktops can be customised, making them an ideal option for your next project.

The perfect solution for any building application, the Nikpol worktop collection offers great variety with more than 20 designs available. Sleek profiles and clean lines mirror the look of granite, stone or wood.

For a slimline finish, four stone and ceramic high gloss designs are available in the Motivi 20mm Worktop with a 2.5 mm radius.

### Characteristics

MOTIVI 20 MM & 38 MM WORKTOP

- Low formaldehyde E0(0.5mg/l)
- Moisture resistant
- Low VOCs Levels
- Low sand content
- Protective film
- Micro abrasive resistance
- 2.5 mm radius
- Matching ABS edging
- 7 year warranty

EGGER 38 MM WORKTOP

- Low formaldehyde F\*\*\*\*(0.3mg/l)
- Moisture resistant
- Low VOCs levels
- Low sand content
- Matching ABS edging
- Chemical resistant laminate
- 3 mm radius
- 7 year warranty

### Sustainability

EGGER 38 MM WORKTOP

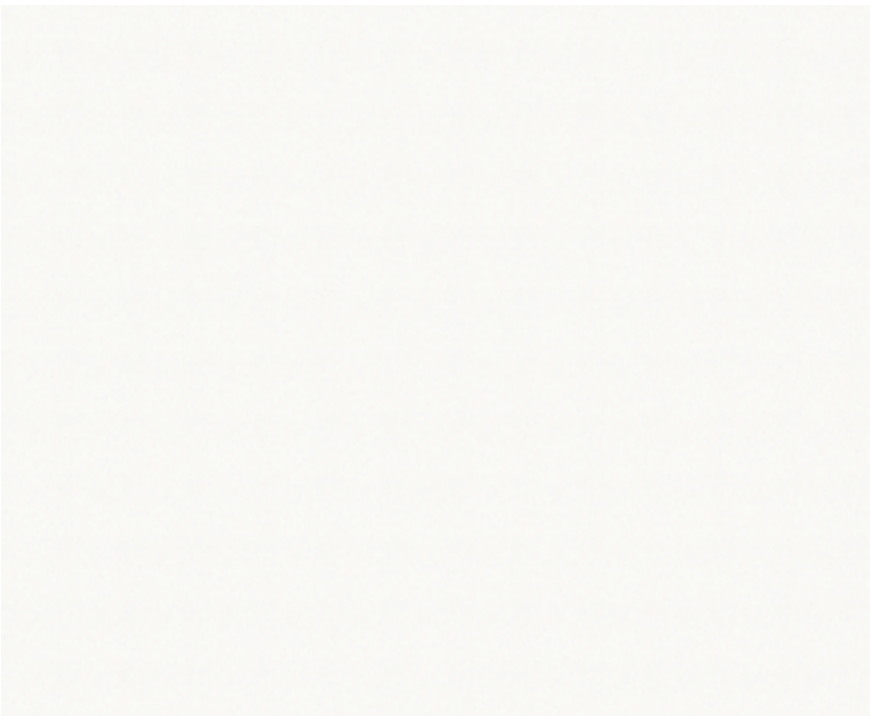

- PEFC Certified
- Greentag Level A Certification
- Contains over 30% post-consumer recycled content
- Robust and durable

### Sample Service

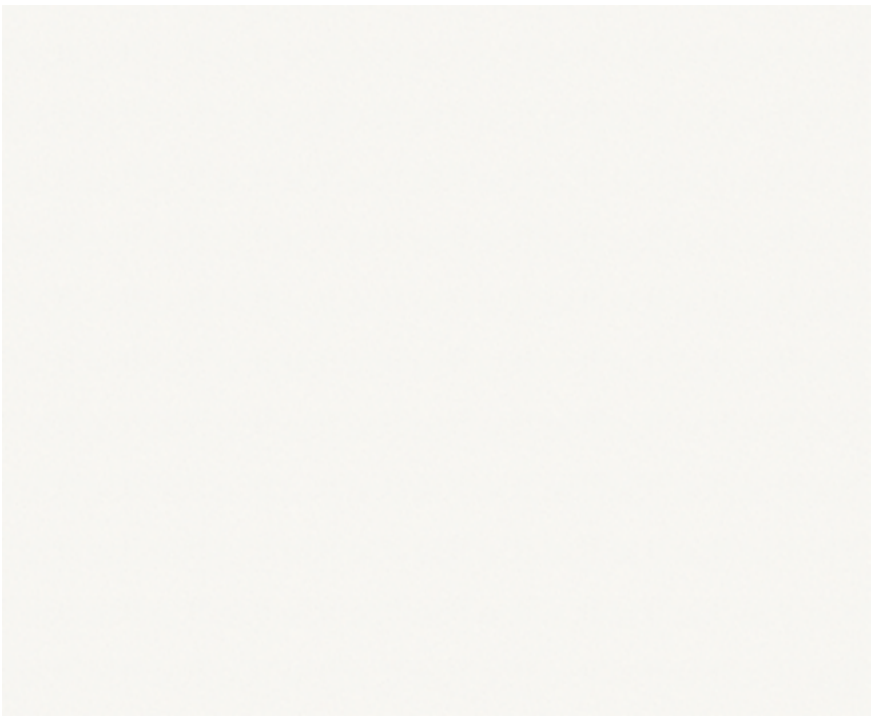

Nikpol offers an express sample service. Visit [www.nikpol.com.au](http://www.nikpol.com.au) to order complimentary laminate samples.

# PEFC/FSC

## Environmentally Conscious

Our Egger Particleboard, Eurolight, Décor board 50mm, Worktops & Laminate products receive a Green Level 'A' rating for maintaining an F\*\*\*\* (0.3mg) Super E0 rating, reducing the number of VOCs (Volatile Organic Compounds) released into the air.

At Nikpol we are committed to the responsible sourcing of wood based products, we ensure this through our FSC and PEFC certifications.

An FSC certification considers that forestry operations be cost-effective while not compromising the environmental health of the forest. Ask about our FSC range.

Nikpol is also proud to be part of a join research project with the CSIRO to find a way to recycle chipboard and MDF waste, reducing the amount of land fill created from these products each year.

For an up-to date colour range and product availability please refer to [nikpol.com.au](http://nikpol.com.au) for the current availability guide. The surfaces contained within this catalogue are indicative of the surface, whilst the utmost care is taken in printing this catalogue, the colour presented may not be an exact match.

Please order a sample from [nikpol.com.au](http://nikpol.com.au) before making your final decision.

The photos and images in the Nikpol decorative catalogue are as close to the real product as possible, but from time to time camera angles and printing can distort these images. All surfaces are prone to scratching, even when considered to be scratch and abrasion resistant. All Nikpol decorative surfaces should be kept out of direct sunlight to avoid fading by the sun.

For warranties, care information and other technical information please see [nikpol.com.au](http://nikpol.com.au) for detailed documentation.
